## Education

---

### B.Tech (Computer Science)

August 2021 – May 2025

*Banasthali Vidyapith*

8.05

### Class 12th

April 2020 – May 2021

*Banasthali Vidyapith*

90

### Class 10th

April 2018– May 2019

*Blue Bell*

93.4

## Relevant Coursework

---

- Data Structures
- OOPS
- Database
- C/C++
- Operating System

## Experience

---

### DRDO (Center for Artificial Intelligence & Robotics)

July 1, 2024 –

*Full Stack Intern*

*Bengalore, Karnataka*

- Aiming to create a platform that will provide comprehensive information about India and other countries, making it a valuable resource in the future.
- Working on both frontend and backend development, implementing interactive user interfaces with React.
- Developing a full-stack website using React, Django, and PostgreSQL during my internship at DRDO.

### Bharat Intern

February 10, 2024 - March 10, 2024

*Web Development Intern*

*Remote*

- Developed various projects using HTML, CSS, and JS.
- Successfully completed assigned projects within a span of one month.

## Projects

---

### CineStream Explorer | *React JS, Redux*

January 2024

- Developed a React-based web application that integrates with The Movie Database (TMDb) API to provide users with movie and TV show information.
- Implemented search functionality to find movies and TV shows based on user queries.
- Enabled users to easily find and explore a wide range of movies and TV shows, improving content discovery and engagement.

### Gyananshu | *HTML, CSS, JavaScript, PHP, MySQL*

August 2023

- The Scholar Connect, making it easier for students and professors at Banasthali Vidyapith to work together and share knowledge.
- It helps facilitate research collaborations by connecting researchers with similar interests.

### Weather Application | *HTML, CSS, JavaScript*

November 2022

- Implemented dynamic background changes based on weather conditions (clear, cloudy, rain, etc.) to enhance user experience.
- Integrated OpenWeatherMap API to fetch and display weather data, including temperature, humidity, and wind speed.
- Utilized JavaScript for interactivity, including search functionality and real-time weather updates based on user input.

## Technical Skills

---

**Languages:** C, C++, HTML, CSS, React JS, SQL

**Developer Tools:** VS Code, Canva, Jupyter
